Technology Services

See Differently

See Differently has South Australia's largest range of vision-related assistive technology. From the latest in tech, such as smart speakers and electronic smart glasses to magnifiers, clocks and kitchen scales – let us work with you to find the right equipment to enhance your life!

Leading the way

As South Australia's leading low vision technology provider, See Differently has unmatched access to the latest equipment and expertise from Australia and overseas. And if there is anything we don't have, just ask, our team will happily get it in stock for you!

See Technology Differently

Your technology needs are as unique as you are. Looking to fill your morning cuppa to just the right spot? A liquid level finder could be the answer. Or perhaps you're struggling with your office set up? We'll work with you to find the right technology; a screen reader and software package could transform the way you see (and work).

Our difference

There are a few things that set our low vision services apart:

An amazing team

Our highly trained team of technology experts are passionate about technology and finding the right technology solution for you! And our service doesn't stop at providing you with the technology – we're here to set you up to succeed with your new technology with ongoing training and support.

Vision is our business

See Differently is all about vision. We are South Australia's largest and most experienced low vision service provider and have been working with people with blindness and low vision for nearly 140 years. We appreciate that losing your sight is a uniquely personal experience and requires an individual approach.

Our large range of services makes See Differently your destination for all your low vision needs. We'll connect you with the services and resources you need to chart your way forward.

One organisation, lots of services

See Differently is your one-stop shop for anyone with low vision. Our services include;

- Occupational Therapy
- Orientation and Mobility
- Support Coordination
- Counselling
- Support Worker and Volunteer Support Services
- Employment Services
- Guide and Assistance Dog Services
- Optometry
- Technology

We're Local

See Differently is proudly South Australian with a number of centres across Adelaide.

We also provide services to our regional communities with regular visits and tele-health options.

Visit us at See Differently's modern Low Vision Centre to view our range, meet with the tech team and try out equipment for yourself.
