Product Catalogue for DVA Clients

Introduction

See Differently is a leading national provider of blindness and low vision products and services to thousands of people. See Differently is proud to be one of the approved Department of Veterans' Affairs (DVA) suppliers for the Rehabilitation Appliances Program (RAP). See Differently is also a provider for Low Vision clinics, Allied Health Services and Library Services for entitled veterans, war widows and widowers who are blind or have low vision.

See Differently DVA Optical and Daily Living Aids Program

As a DVA Gold or White card holder you may be eligible to receive the products (conditions apply). See Differently has over 200 daily living aids listed in this catalogue which have been approved by the DVA. If you require optical aids such as magnifiers and lamps, you must first visit an Optometrist or Occupational Therapist to have a Low Vision Assessment. Assessments are conducted by an Optometrist or Occupational Therapist to ensure the correct magnification is prescribed and the optical aid will fully meet your needs.

How do I order Daily Living Aids?

Step 1: You must be a DVA Gold Card or White Card holder

Step 2: Determine which aids you require by either browsing this catalogue or visiting one of See Differently's locations (see below).

Step 3: An order can be placed in one of the following ways:

- In person at a See Differently office
 - 212 Pirie St Adelaide SA 5000 8:30am – 5:00pm Monday to Friday
 - Noarlunga 58 Dyson Rd Noarlunga Downs SA 5168 8:30am – 4:30pm Monday to Friday
 - Smithfield 27 Anderson Walk Smithfield SA 5114 8:30am – 4:30pm Monday to Friday
- By Phone 1300 944 306
- By email or fax. Please note you will first need to complete a Direct Order Form prior to placing the order. A copy is available in the back of this catalogue. This form can be scanned and emailed to intake@SeeDifferently.org.au or faxed to (08) 8232 4807.

Step 4: If you are unable to attend See Differently to collect the item(s) they will be posted out to you. The DVA will cover postage costs.

How do I order an Optical Aid (magnifiers, lamps and UV shields)?

Step 1: You must be a DVA Gold Card or White Card holder

Step 2: You will first need a Low Vision Assessment (LVA). This can be done by visiting your local Optometrist or Occupational Therapist. A copy of this assessment will need to be emailed to intake@SeeDifferently.org.au or faxed to (08) 8232 4807. Alternatively, See Differently can conduct the assessment. To arrange an appointment please call 1300 944 306.

Step 3: The prescribed optical aid will be provided at the completion of the assessment if provided by See Differently (subject to availability), alternatively the item will be posted out to you if the assessment is provided by your local Optometrist or Occupational Therapist.

Frequently Asked Questions

Can I receive aids and appliances if I live in a Residential Aged Care Facility?

This depends on the existing level of care you receive. To determine what level of care you receive, please consult your Aged Care Provider.

The only low vision aids the DVA cannot fund under RAP are CCTVs (Desktop Magnifiers) if you receive a greater level of care in an Australian Government funded aged care facility.

RAP items can be taken with you if you move from a lower level of care to a greater level of care with the approval of your Aged Care Provider. DVA will still be responsible for the repair, maintenance, and replacement of these items.

Can I have my aid or appliance delivered?

Yes, aids and appliances will be delivered to your home. Freight charges, installation and training will be covered by DVA. Collection from a See Differently office is at the cost of the client.

What if my equipment is broken?

You are welcome to contact See Differently if your equipment needs to be repaired. The item will then be assessed subject to the manufacturers warranty.

What if I no longer need my equipment?

If you no longer need your equipment and it is under two years old, please contact See Differently to arrange its collection. Alternatively, you can donate the equipment to See Differently.

When do I require prior approval?

Prior approval is required for some expensive items such as technology equipment as the DVA require See Differently to clinically justify why the chosen aid is required for you.

Daily Living Aids

Daily living aids are devices that enable someone who is blind or vision impaired to complete day-to-day tasks more easily and efficiently. Examples of daily living aids are talking scales, clocks, watches and games.

*Items not included under this schedule are UV shields, lamps and magnification aids.

Living with Low Vision

V Remote - 6 Button LV1832011 AN17

6 Button TV Remote. Easy to see and easy to use.

Liquid Level Finder - Dual Levels LV1826001

AN17 These easy-to-use devices are simply hung on the rim of the cup. Pour the liquid, and when the level is approximately 25mm from the top, the device will emit a buzz and vibrate, alerting you to stop pouring. This liquid level finder has two levels – one for hot water and one for milk!

Identification Badge - Yellow LV1825002

AN17 Vision impaired badges. Available in large rectangle size.

Talking Products

Talking Cube Clock LV1833012 AN01 Grey talking clock with a contrasting yellow button. Simple in design and easy to use, press the button on the top of the clock to hear the time in a natural English male voice. Includes volume control dial and an option to hear hourly time announcement. Batteries included.

Talking Calculator 10 Digit LV1837002 AN17 Excellent quality with a clear voice and time/date function.

Analogue Alarm Clock LV1833008 AN01 This clock has both a digital display and a large analogue display. It also features an optional hourly report. The clock has a raised 'talk' button on the top and is very simple to set.

Red Calendar Alarm Clock LV1833004 AN01 Very high quality speech (male voice). Full reporting of the day and date as well as the time. 8 volume settings. Choice of 11 alarm sounds. Hourly report optional. This excellent device is very easy to set. A red cover leaves only the date and time buttons exposed to avoid accidental resetting of the date, alarm or time.
